# Machine Learning in Physics – Case Studies & Discussion

Friday, 14 February 2020

Faculty of Physics, University of Vienna, Boltzmannngasse 5, 1090 Vienna  
Christian-Doppler lecture hall, 3<sup>rd</sup> floor

9:00

## Learning Science from Data – Plenary Talks

**Torsten Möller** – Head of the Research Platform Data Science & Head of the Research Group Visualization and Data Analysis at the University of Vienna

**Peter Wirnsberger** – Research Scientist at DeepMind

**Stefan Thurner** – President of the Complexity Science Hub Vienna & Chair of the Section for Science of Complex Systems at the Medical University of Vienna

12:30

## Artificial Intelligence Start-Ups – Flash Talks and World Café

**Patrick Blies** – AI Research Engineer at EnliteAI

**Jason Hölscher-Obermaier** – VP R&D at ONDEWO

**Valentin Stauber** – Senior Research Engineer at Iris.ai

**Paul Tiwald** – Senior Data Scientist at Mostly AI

14:30

## Is model transparency good or bad for scientific applications of deep learning? – Plenary Talk

**Cameron Buckner** – Professor at the Philosophy Department, University of Houston

15:30

## Panel Discussion with plenary speakers

This public event is part of the VDSP-ESI Winter School 2020 “Machine Learning in Physics”.

Attendance of the day is free of charge  
and without registration.
