Vienna PDE Afternoon

01.12.2021 from 14:00 to 16:00

From 14:00 to 14:45:

Matthias Rambausek (TU Wien)

Extremely soft magnetoelastic composites: challenges in numerical and phenomenological modeling

Abstract: <https://www.univie.ac.at/sfb65/#!/public/events/details/?type=1&id=619>

From 15:00 to 15:30:

Michael Innerberger (TU Wien)

Adaptive FEM for parameter estimation problems

Abstract: <https://www.univie.ac.at/sfb65/#!/public/events/details/?type=1&id=620>

From 15:30 to 16:00:

Jannis Körner (TU Wien)

A third order WKB-based scheme for the 1D stationary Schrödinger equation in the highly oscillatory regime

Abstract: <https://www.univie.ac.at/sfb65/#!/public/events/details/?type=1&id=601>

The seminars take place on Zoom. The Zoom link is sent per email through the DK/SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at <https://www.univie.ac.at/sfb65/#!/public/news/newsletter/subscribe/>

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to matteo.tommasini@univie.ac.at (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
