Vienna PDE Afternoon

27.04.2022 from 15:00 to 16:00

From 15:00 to 15:30:

Alexandra Holzinger (TU Wien)

Fluctuations around the mean-field limit with moderately interacting particles

Abstract: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=655>

From 15:30 to 16:00:

Daniel Bäumer (University of Vienna)

Quasi-geostrophic theory on a rainy day: a new model

Abstract: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=656>

The seminars take place on Zoom. The Zoom link is sent per email through the DK/SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at <https://sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/>

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to matteo.tommasini@univie.ac.at (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
