## Vienna PDE Afternoon

14.12.2022 from 14:00 to 14:45

University of Vienna, Faculty of Mathematics,  
Oskar-Morgenstern-Platz, 1, Vienna

HS 2, ground floor

(this event takes also place online)

From 14:00 to 14:45:

**Rufat Badal** (University of Erlangen-Nürnberg, Germany)

*Nonlinear and linearized models in thermoviscoelasticity*

Abstract: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=696>

---

The seminar takes place in hybrid form (in person and also on Zoom). The Zoom link is sent per email through the SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at <https://sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/>

Alternatively, if you are interested only in this seminar, you could request a Zoom link by writing an email to [matteo.tommasini@univie.ac.at](mailto:matteo.tommasini@univie.ac.at) (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
