Vienna PDE Afternoon

08.03.2023 from 14:00 to 15:45

TU Wien - Gußhausstraße 25, 1040 Vienna

EI 4 Reithoffer HS, 2nd floor

(this event takes also place online)

From 14:00 to 14:45:

Riccardo Cristoferi (Radboud University, The Netherlands)

Optimality properties of polygons

Abstract: https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=708

From 15:00 to 15:45:

Michael Neunteufel (TU Wien)

Regge finite elements in differential geometry: metric, geodesic, and curvature approximation

Abstract: https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=709

The seminars take place in hybrid form (in person and also on Zoom). The Zoom link is sent per email through the SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at https://sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to matteo.tommasini@univie.ac.at (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
