Taming Complexity in
Partial Differential Systems

Austrian
Science Fund

Vienna PDE Afternoon

Wednesday, 06.11.2024 from 14:00 to 15:30

TU Wien, Wiedner Hauptstraße 8, 1040 Vienna

green area, second floor, seminar room DA 02 A (room number: DA02E08)

and online on Zoom

From 14:00 to 14:45:

Lorenza D'Elia (TU Wien)

Homogenization of supremal functionals

Abstract: <https://sfb65.univie.ac.at/s/ou/>

From 15:00 to 15:30:

Jonas Ingmanns (IST Austria)

Quantitative Homogenization of Forced Mean Curvature Flow through a random field of obstacles

Abstract: <https://sfb65.univie.ac.at/s/ov/>

The seminars take place in hybrid form (in person and also on Zoom). The Zoom link is sent per email through the SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at <https://sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/>

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to matteo.tommasini@univie.ac.at (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
