Vienna PDE Afternoon

Wednesday, 02.04.2025 from 13:30 to 14:45

(please notice the unusual start time!)

University of Vienna, Faculty of Mathematics, Oskar-Morgenstern-Platz 1

HS 2 (ground floor) and online on Zoom

From 13:30 to 14:15:

Andrea Signori (Politecnico di Milano, Italy)

Active Phase Separation: A Mathematical Perspective on Droplet Dynamics

Abstract: [SFB65.univie.ac.at/s/pp](https://sfb65.univie.ac.at/s/pp)

From 14:15 to 14:45:

Peter Hirvonen (TU Wien)

The Busenberg-Travis System and Modifications

Abstract: [SFB65.univie.ac.at/s/pq](https://sfb65.univie.ac.at/s/pq)

The seminars take place in hybrid form (in person and also on Zoom). The Zoom link is sent per email through the SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to matteo.tommasini@univie.ac.at (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
